

Milking Routine

Double 10 Parabone

Five cow routine

Cow 1

1. Brush off dirt with back of hand.
2. Dip far side teats then near side teats with the teat dip in the pre-dip cup.
3. Massage each teat entirely on the front teats 2 times.
4. Massage each teat entirely on the rear teats 2 times.
5. Rub each teat ends with thumb 2 times to clean off teat.
6. Strip two squirts of milk out of each teat.

Repeat steps 1-6 for cow 2 - 5

Wipe / Attach

7. With a clean towel, wipe sides and ends of the two front teats.
8. Wipe sides and ends of rear teats.
9. Ensure teat is clean before attaching milker claw.
10. Quickly attach the milking unit.
11. Adjust milker hose if needed.

Repeat steps 7-11 for cow 2 - 5

Post Dip

12. After milking is complete, apply post dip to all four teats with the dip cup.
13. Dip should be applied to each teat so as to completely cover the entire teat.
